Ringing Signal

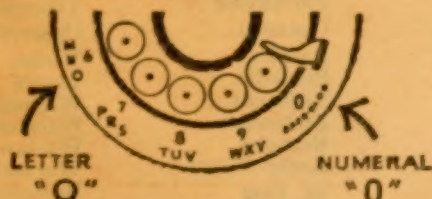

A soft "burr-r-ring" repeated at regular intervals means that the telephone you dialed is ringing. Give your party time to answer—about 10 rings—before you hang up.

The Busy Signal

A steady "buzz-buzz-buzz" sound means the line you called is in use. Hang up and call again later.

Letter "O"—Numeral "0"

Please be careful not to confuse the letter "O" with the numeral "0" when dialing.

SPECIAL INSTRUCTIONS FOR PARTY LINE CUSTOMERS—

NORFOLK, PORTSMOUTH, CHESAPEAKE (except 547 or LI 7) and VIRGINIA BEACH (except 426)

CUSTOMERS—

A busy signal repeatedly encountered may mean that you are calling another party on your line, in which case

a special procedure will be required. To determine if a party is on your line, dial "114". Give her your number and the number of the party you are calling. She will tell you if the party is on your line and will give you the instructions for reaching him. If you know that a desired party is on your line, dial "Operator"; give her your number and ask her for the proper instructions.

GREAT BRIDGE 547 (LI 7) CUSTOMERS—

A busy signal repeatedly encountered may mean that you are calling another party on your line in which case a special procedure will be required. To determine if a party is on your line, dial "7". Give her your number and the number of the party you are calling. She will tell you if the party is on your line.

To call a party on your line, dial the listed number. You will receive a busy signal and then hang up your receiver. You will not hear your party line bell ring. Allow time for the other party to answer and then pick up your receiver and begin the conversation.

PRINCESS ANNE 426 CUSTOMERS—

When reaching a recorded announcement informing you that you are calling another party on your line, hang up your receiver and wait for your telephone to ring. When your telephone stops ringing, your party has answered. If the called party does not answer, lift your receiver to stop your telephone from ringing.

HOW TO USE DIRECT DISTANCE DIALING

The United States and Canada are divided into more than 100 telephone areas, each identified by a three-digit area code. (See map on page 3.) This system makes it possible for you to have Direct Distance Dialing. With DDD, you can dial your

own station-to-station calls to many places in the United States and Canada. For other types of calls and calls from coin telephones, dial "Operator."

If you know the area code and number . . .

1 ON CALLS INSIDE THE 703 AREA (VIRGINIA)

DIAL 1 and then the TELEPHONE NUMBER. Do not dial area code 703.

2 ON CALLS OUTSIDE THE 703 AREA

DIAL 1 and then the appropriate AREA CODE and the TELEPHONE NUMBER.

3 GIVE THE OPERATOR YOUR NUMBER WHEN SHE ASKS FOR IT

Before the called telephone rings, an operator may ask "Your number, please?" Be sure to give her the number from which you are calling.

4 IF YOU REACH A WRONG NUMBER

—dial "Operator" immediately and tell her what city you reached so you will not be billed for the call.

If you don't know the area code or number . . .

1 HOW TO GET THE AREA CODE

A partial list of places you can dial direct and their area code are shown on pages 3-7. If the place you want is not listed, dial "Operator" and ask her if it can be dialed.

2 HOW TO GET THE NUMBER

If you don't know the out-of-town number, you can dial the Information Operator serving many distant places — those starred on pages 3-7 — without charge. Dial 1, the area code, then 555-1212. When the Information Operator answers, first give her the city or town, then the name and address you are calling.

If the place you are calling is not starred, dial "Operator" and ask for Information in the distant city.

3 DIAL THE CALL, FOLLOWING INSTRUCTIONS IN LEFT COLUMN

YOUR TELEPHONE OPERATOR

Your Operator is always ready to help you with calls you cannot dial, in any difficulty you may encounter or IN EMERGENCIES. To reach her dial "OPERATOR."

ample, say "Area code 311, 555-2368." If the Operator needs to know the place name, she will ask you for it.

HELPFUL INFORMATION

YOUR TELEPHONE NUMBER IS IMPORTANT

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code, too—it helps distant parties call you faster.

When You Hear a "BEEP" Tone

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

Attachments to Telephones

The Telephone Company furnishes all equipment necessary to provide telephone service. In the interests of safety and good service, no equipment, apparatus or device not furnished by the Telephone Company may be attached to, or used or connected with, its facilities, except as provided in the Company's tariffs.

Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph company — see the listings of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Employee Identification Cards

For your protection, any employee who visits customer premises carries an official identification card showing his or her name and signature. If you have the slightest doubt about anyone who says he's "from the Telephone Company" please ask to see his card.

Out-of-Town Directories

Directories of other cities may be obtained at a nominal charge. Call your Business Office.

Telephone directories of the principal cities and towns in the United States may be consulted at 740 Granby St., Norfolk, 804 High St., Portsmouth, 206 Laskin Rd., Virginia Beach or 103 S. Road St., Elizabeth City, N.C.

Automatic Answering Set

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available. It then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

Some of these sets will also record a message from the caller.

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities, on file with the appropriate Regulatory Commissions, are available in our Business Office for public inspection.
